A selection of articles from across the Nature journal portfolio

Clicking on the cover will take you straight to the current issue of Nature

The main content area features a large featured article: "Venus is Earth's evil twin — and space agencies can no longer resist its pull". Below this are several smaller article tiles, including "The human body is a mosaic of different genomes", "Mating preferences of selfish sex chromosomes", "The lizards rewriting the rules of ecology", and "Daily briefing: White House blocks climate science testimony". A "nature briefing" section is also visible, along with the current issue cover for June 2019.

The navigation menu is organized into several columns:

- Nature**: Research, News, Opinion, Research Analysis, Careers, Books and Culture, Podcasts, Videos.
- Nature Research**: Our Journals (Nature, Nature Communications, Nature Protocols, Scientific Reports), Subjects (Biological Sciences, Scientific Community & Society, Earth & Environmental Sciences, Health Sciences, Physical Sciences), and More (Contact us, Authors & Referees, Librarians, Advertisers, Press, About Nature Research).
- Additional links**: Current Issue, Browse Issues, Browse Articles, Browse Collections, Browse Subjects, About the Journal, For Authors, For Referees, Awards, Subscribe, E-alert, Submit.

Callout boxes highlight "View all journals" and "View all journals, the A-Z index page".

Additional features on this page include Latest Research articles and letters from across the nature journals portfolio, the most recent Review, News & Views, Perspectives, Hypotheses, Analyses, News, Feature, Comment and Editorial.

As well as:

- Journals tools, including submission, subscription and recommend to library links, e-alert and RSS feed sign-ups and social pages
- Nature Outlook's latest collection
- Footer links to other areas of our site such as Publishing Tools, Researcher Services, useful links for Librarians and more

Know where you are on nature.com at anytime with the "crumb trail" along the top navigation bar.

The screenshot shows the top navigation bar with a breadcrumb trail: nature > volumes > volume 572 > issue 7778. The main header features the 'nature' logo and a 'Subscribe' button. Below the header is a search bar labeled 'Search Nature' with a dropdown menu for 'All Subjects'. The main content area is titled 'Latest Research' and displays a grid of article cards. Each card includes the article title, date, a small image, and a 'show more' link. The articles listed are:

- Antarctic offshore polynyas linked to Southern Hemisphere climate anomalies** (10 June 2019)
- Off-target RNA mutation induced by DNA base editing and its elimination by mutagenesis** (05 June 2019)
- Heterochromatin drives compartmentalization of inverted and conventional nuclei** (05 June 2019)
- Magnetism in cold subducting slabs at mantle transition zone depths** (05 June 2019)
- Hypersonic Bose-Einstein condensates in accelerator rings** (05 June 2019)
- Group 3 innate lymphoid cells mediate early protective immunity against tuberculosis** (05 June 2019)
- Predator-induced collapse of niche structure and species coexistence** (05 June 2019)
- Palaeo-Eskimo genetic ancestry and the peopling of Chukotka and North America** (05 June 2019)
- Mating preferences of selfish sex chromosomes** (05 June 2019)

## Trending

Today's most popular articles that are being shared, liked and talked about online.

Altmetric tracks article citations, shares on social platforms, mentions in blogs and news outlets.

The 'Trending' section displays four articles with their Altmetric scores:

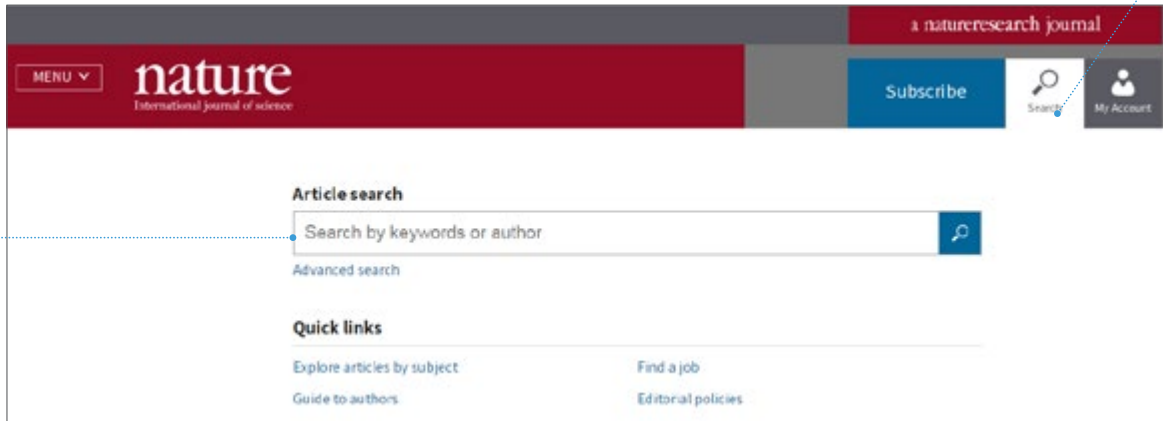

- Mapping human microbiome drug metabolism by gut bacteria and their genes** (Score: 560)
- The population history of northeastern Siberia since the Pleistocene** (Score: 436)
- To catch and reverse a quantum jump mid-flight** (Score: 436)
- Gene edits to 'CRISPR babies' might have shortened their life expectancy** (Score: 344)

# Search

Finding the right information on nature.com is easy and intuitive.

Search boxes appear in the top right corner of all journal pages.

Make your search more specific using the "advanced" search option - see below for more details

# Search Results

The screenshot shows a search results page on nature.com. At the top, there is a navigation bar with 'nature > search', a 'nature.com' logo, and 'MENU' and 'Search' buttons. The main content area is titled 'Climate change' and includes a search filter 'advanced' and a magnifying glass icon. Below the title, there are filters for 'Article type', 'Journal', and 'Date', and a 'Sort by Relevance' dropdown. The results list two items: a 'Reviews' article from 10 June 2019 titled 'Scientists' warning to humanity: microorganisms and climate change' and a 'Research' article from 12 June 2019 titled 'Climate as a risk factor for armed conflict'. A 'Rights & permissions' link is visible under each result. On the right side, there is a 'Climate-change ecology' section with a description and a 'Discover more subjects' section listing 'Climate change', 'Climate-change impacts', and 'Climate-change mitigation'.
